

NORTH CAROLINA AVE IMPLEMENTATION PROJECT

Dear District Resident,

The District Department of Transportation (DDOT) will begin a traffic switch beginning Thursday, May 4, 2023, on North Carolina Avenue NE from 13th Street NE to 14th Street NE. The contractor will re-open parking lanes on the south side of North Carolina Avenue NE on Wednesday, May 3, 2023. A temporary closure to the north parking lane will commence on Thursday morning, May 4, 2023. Traffic and directional signage will be installed to assist motorists in identifying the new construction limits.

During this construction period motorists will be unable to park along the north side of the block. Parking along the north side will be restored upon the completion of hardscape construction work (approximately 4 weeks). Pedestrian walkways will be in place to allow safe access to the sidewalk at all times throughout construction.

Please Note:

Construction for drainage and communication infrastructure is still ongoing.

Lane closure hours remain between 7:30 AM and 5:30 PM Monday to Friday, holidays excluded.

Parking is prohibited in the work zone and will be enforced. Safe accommodations for pedestrians and cyclists will be included.

Traffic controls and signage will be in place to safely guide all motorists through the work zone. Motorists are urged to use caution when traveling through the work zone, to anticipate moderate delays, and to be mindful of pedestrians, cyclists, and construction personnel.

The completed project will improve overall safety for pedestrians, motorists and cyclists along the C Street NE and North Carolina Avenue NE corridors as well as improved overall pedestrian safety, installation of protected bicycle lanes, curb extensions and raised sidewalks, ADA compliant intersections, traffic calming measures, improved bus operation, improved traffic signal operation, upgraded street lighting and enhanced streetscape and green spaces.

Our goal is to keep you abreast of traffic modifications and milestones while providing open communication with the construction outreach team. Please feel free to visit the website at
